

## General Regulations for Ordering Rental Shell Scheme

### General Information

These chipboard walls may not be processed using paint, nails, screws, glue, adhesives that are hard to remove or similar. The exhibitor is liable for any damage due to the violation of these regulations.

For shell scheme orders that are placed less than 10 days before the beginning of an exhibition, a processing surcharge of 30% will be applied.

### Shell Scheme Equipment

The shell scheme is a predefined trade fair stand which can have individual options added to it.

A lightweight system made of anodised aluminium components and white grey panels (other colours available for a surcharge).

### Express Surcharge

For shell scheme orders that are placed less than 10 days before the beginning of an exhibition, a processing surcharge of 30% will be applied.

### Contravention/Liability

The exhibitor is liable for damage and faults resulting from non-compliance with the General Regulations of the Exhibition, the general conditions stated on this form or instructions issued by Exhibition staff.
