

Signage

Signage for indoor areas

Signage in the registration zone

The signs in the registration zone can be individually tailored to the requirements of your event. The signs are A3 in size and produced in landscape format.

The signs are mounted by our technicians. They are placed in transparent sleeves and hung by means of magnets, directly beneath the ceiling in the foyer on the second floor. On the ground floor, they are hung from the ceiling on chains or hooks. A total of 20 sleeves are available for signs.
